12 Fundamentals for Living the Life of Your Dreams

Life is an un-ending stream of choice points, which shape the quality of your life. One set of choices is a recipe for joy, clarity, freedom, peace, abundance and inner fulfillment. The other set of choices is a recipe for stress, depression, scarcity, resistance and frustration.

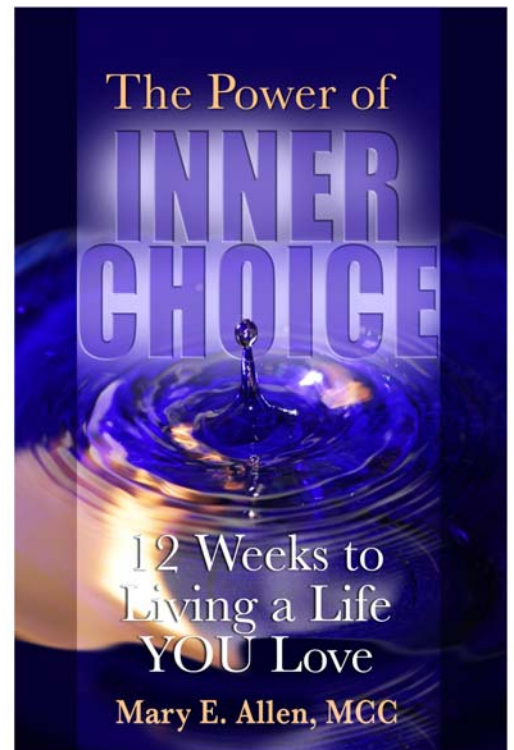

There are thousands of big and little choices we make each day. The question is, ***“Who is doing the choosing?”***

In this thought-provoking workshop, you will consciously connect to your greatest source of power and creativity and discover your “inner chooser”.

Here you will learn:

- How to clearly distinguish your authentic “inner chooser.”
- Which outside influences or hidden fears have influenced you in the past.
- 7 clues that it is NOT REALLY YOU doing the choosing.
- The most effective ways to re-connect with your greatest source of power in any moment.
- 12 simple ways to instantly transform distracting stress into clarity and peace.
